

*Modernista*  
cabinetry & design company llc

At Modernistá  
Cabinetry & Design  
Company, we provide  
quality, affordable  
cabinets and  
countertops.

Our mission is to  
provide solutions  
for your home or  
business that fit within  
your budget and  
match your style.

---

## *Kitchens*

We understand that a kitchen has various flows and different work areas required for every individual. Make the most of your kitchen space with solutions from Modernistá. We'll create a design to fit your style and needs. Not ready for a full renovation? Small changes can be made to make your kitchen both functional and beautiful.

## *Bathrooms*

Your bathroom cabinets work hard to hide beauty products and other clutter. Advance your vanity beyond basic with a little extra design oomph—think gorgeous hardware, an eye-catching color, or new vanity top. Pick a vanity that keys off your bathroom's design aesthetic for a unified look, or branch out into something that pairs the vibe of your bath for an eclectic look.

## Basements

Whether you use your basement for additional storage at home or as an entertainment room for your family and guests, we'll help you maximize your space! Create a home office, set-up a workshop, add an entertainment area ... whatever your need, Modernistá has the cabinets and countertops to make it happen!

Modernistá uses a professional, customized approach for each client. Rich in creativity and uniqueness, we strive to create inspiring places with a powerful visual impact that fits within your budget while exceeding your expectations.

From concept, to execution, to completion, we work closely with our clients every step of the way to help create unique and beautiful cabinets and designs.

Our team has a passion for updating and creating new, customized spaces for both residential and commercial clients.

## Custom

Looking to do a custom project? We'll help you create a custom space in your home or business.

At Modernistá, we'll guide you through our product offerings and benefits, show you options on material types and finishes, and provide you with layout and design concepts. Whether your project is a small renovation or a new build, Modernistá will make your dream a reality.

## Laundry Rooms

A laundry room is increasing in popularity as a necessary household improvement. We'll help you create a space that is organized, up-to-date and attractive enough to enjoy doing the never-ending household chore.
